Message from the CEO

Driving Process Change with
ACCELERATION WORKSHOPS

Richard A. Spires, CEO
Learning Tree International

Having worked in IT management for a couple of decades, I have been frustrated by wanting to improve the way organisations function because it was a struggle to drive sustained change that works. This frustration crosses all elements of IT management, whether it be in the way we develop and execute budgets, plan and manage our projects, implement service management, or even secure our systems. I have found there are typically **three ways IT organisations will go when attempting to drive process improvement:**

1. RECRUIT TALENT

While a viable option, it is fraught with risk. Finding individuals that have the expertise, attracting them to your organisation, and then relying on them to not only have the expertise in the needed process discipline, but also the leadership skills to drive that process discipline into the organisation, can be a tall order.

2. HIRE CONSULTANTS

Typically, you can find a consultant or company that has the expertise required. They will study your organisation, identify weaknesses, and recommend action plans for improvement. However, I have found that consultants struggle to provide the leadership necessary to drive the change in the organisation because they are not part of the organisation. Their report can be correct in every aspect, but the results do not measure up to the rhetoric.

3. TRAIN THE STAFF

Organisations can rely on their own staff, working to augment their skills with training in the appropriate disciplines. The issue, however, is that without having seen an organisation operate properly, training itself will not provide the needed management insight that only comes with real-world experience. The process improvement falls flat, not realising the objectives that were expected.

Fortunately, there is an approach that has proven to be highly effective in driving sustained and positive process changes that the staff can embrace. The use of *Acceleration Workshops* combines the best of consulting and training to drive improved outcomes. The basic concept is that an instructor, who is also a true subject matter expert, works with a combination of staff on a unique training and implementation event — employees learn concepts, and then immediately apply those concepts to real-world needs of the organisation while the instructor provides guidance and leadership. The output of *Acceleration Workshops* is deliverables that can be used by the organisation in supporting the process implementation.

Learning Tree® International

Unique
Attendee Benefits
Before, During and After Your Course

As a participant in Learning Tree's publicly scheduled or on-site courses, you are provided with your own personal **My Learning Tree® Account**, which can be used to access unique benefits to help you preserve your training accomplishments and continue learning back at work.

> " _The Computing Sandbox was very easy to access after my course. It allowed me to redo my hands-on exercises, and reinforce what I had learned — on my own time — and at my own pace._ "
>
> – J. Schneider, _Computer Specialist_

COMPLIMENTARY BENEFITS INCLUDE:

- **Talk to an Instructor** about a course or learning path

- **Job-Related Resources**

- **After-Course Instructor Coaching Session** for help and guidance back at work

- **After-Course Computing Sandbox™** for practising and experimenting with the same software used in your course

- **Course Transcripts & Certificates On-Demand**

- **Supplemental Course Materials**

- **Free Exams** for certifications

…and much more!

PLUS, Sponsoring Managers and Team Leaders receive the same My Learning Tree Account benefits, as well as additional benefits to help them plan and manage their team's training!

Increase ROI on Your Training Investment with
Acceleration Workshops

Let's focus on the **Activation Training** level in our blended learning model, which helps learners on their actual projects and processes with pragmatic support to improve cost, schedule, performance, and customer satisfaction.

WHAT IS AN ACCELERATION WORKSHOP?

An Acceleration Workshop is a facilitated multi-day session, led by one or more Learning Tree Advisors, for an intact project team. Typically done at the client's facility, the goal is to utilise the Advisor's expertise and real-world experience in order to focus on and move forward the production of specific artifact(s) needed for the project. Depending on the background of the team members, some instructor-led presentations or coaching might be done to ensure all team members have the necessary knowledge as it relates to the artifact(s) being produced. Acceleration Workshops are particularly useful for project management, cyber security, process transformation (such as ITIL or Agile/Scrum), or technology deployments (like SharePoint).

CASE STUDY

CHALLENGE: MAJOR PROJECT ACTIVATION

A large healthcare provider was struggling with the complex and multi-faceted efforts of opening a major medical centre.

The 'Activation' phase follows the general construction and is a vital phase to ensure the successful launch of a healthcare facility — hiring people, implementing equipment and technology, and establishing all operational processes to provide effective patient care. These large complex projects — which in many cases exceed £1 billion in budget — require the collective collaboration from all departments of the healthcare facility.

SOLUTION: CUSTOM ACCELERATION WORKSHOPS

A custom series of Acceleration Workshops were developed by Learning Tree to immediately assess and implement the relevant project management disciplines, processes, and artifacts required to effectively launch and/or recover these major initiatives. **Workshops offer the following benefits:**

• Development of actual project artifacts – BRD/URD, WBS, Milestone Schedule, Risk Register, Acquisition Strategy, Metrics Dashboard for effective Monitor and Control

• On-the-job coaching of the required competencies to deliver improved performance

• Established formalised project governance

• Improved line-of-sight across project portfolio for senior stakeholders

In one project alone, **a savings of over £2 million** in contract costs were realised.

Learning Tree® International

A Holistic Approach to
OPTIMISE YOUR WORKFORCE

DEFINE
Organisational Structure, Processes & Job Roles

ASSESS/MAP
Knowledge, Skills & Abilities (KSAs)

ENHANCE
Knowledge, Skills & Abilities (KSAs)

IMPLEMENT
Process & Organisational Improvements

Based on your specific needs, our experts will ensure your workforce has a proper framework with well-defined processes and job roles.

DEFINE Deliverables:

- Interview/engage key business and technical stakeholders

- Define the characteristics of a high-functioning organisation

- Analyse and define job roles relating to a Competency Framework

Using our online skills assessment tool, we will identify any skill gaps, create customised training plans, and align the KSAs of your workforce to your immediate and long-term goals.

ASSESS/MAP Deliverables:

- Knowledge and role-based skills assessments; skill gap analysis

- Competency-based professional development plans

- Pre- and post-training skills assessment reports

Our team of dedicated workforce optimisation specialists will manage the training, coaching, and mentoring of your staff to ensure your goals are met.

ENHANCE Deliverables:

Professional development through a variety of modern methodologies:

- **Custom on-site courses/curriculum**
- Instructor-led public courses
- Live, online training via AnyWare®
- Asynchronous training via AnyTime
- Acceleration workshops
- Embedded advisors/ facilitation

With the assistance of our elite team of expert advisors and custom acceleration workshops, the newly acquired processes and skills of your workforce will quickly be applied.

IMPLEMENT Deliverables:

- Project plans to rescue, formalise or accelerate underperforming initiatives

- Establish an environment for implementing and applying best practices

- Improve project facilitation, coordination and reporting to streamline critical decision-making

Custom Team Training — On-Site at Your Preferred Location

Whether your organisation requires a single course or a multi-course curriculum, Learning Tree has the expert instructors, technology and logistical mastery to smoothly handle all aspects of your training events — *whenever and wherever you require.*

ISTQB Certified Tester: Achieving Foundation Certification

Course 316 • 3 Days

YOU WILL LEARN HOW TO:

- Prepare for and take the ISTQB Certified Tester Foundation Level Exam
- Apply general software testing principles and fundamental test processes
- Implement test levels and types to various software development models
- Conduct static techniques using proper roles, responsibilities and tools, and more ...

HANDS-ON EXPERIENCE:

- Deciphering when to apply static and dynamic techniques
- Performing boundary value analysis
- Conducting state transition testing
- Ensuring statement, decision and condition coverage, and more ...

TUITION FEE:
£1,695

EARN:
PMI PDUs

SCHEDULE: Visit **LearningTree.co.uk/316** for more dates.

July 13-15.............Wash., DC*	Nov. 30-Dec. 2......Wash., DC*
Aug. 24-26............Wash., DC*	Dec. 14-16............ New York*
Sep. 28-30..................London	Jan. 11-13, 2017 ....London
Oct. 12-14 ....Wash., DC*	Feb. 22-24, 2017 ..Wash., DC*

Afternoon Start – 2pm - 9:30pm GMT

Introduction to Big Data

Course 1250 • 3 Days

YOU WILL LEARN HOW TO:

- Integrate Big Data components to create an appropriate Data Lake
- Select the correct Big Data stores for disparate data sets
- Process large data sets using Hadoop to extract value
- Query large data sets in near real time with Pig and Hive, and more ...

HANDS-ON EXPERIENCE:

- Integrating key Big Data components to create a Big Data platform
- Loading unstructured data into Hadoop Distributed File System
- Querying Hadoop MapReduce jobs using Hive
- Simplifying Big Data processing and communicating with Pig Latin, and more ...

TUITION FEE:
£1,695

EARN:
Certifications

SCHEDULE: Visit **LearningTree.co.uk/1250** for more dates.

July 13-15............. New York*	Nov. 30-Dec. 2......Wash., DC*
Aug. 24-26.................London	Dec. 7-9......................London
Sep. 14-16............Wash., DC*	Jan. 11-13, 2017 ..Wash., DC*

*Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Introduction to Data Science for Big Data Analytics

Course 1253 • 5 Days

YOU WILL LEARN HOW TO:

- Harness data mining methods to answer crucial business questions from internal and external data sources
- Create competitive advantage from both structured and unstructured data
- Predict outcomes with supervised machine learning techniques, and more ...

HANDS-ON EXPERIENCE:

- Working with an R and RHadoop programming environment to analyse varied data sets
- Preprocessing and preparing data for deeper analysis
- Applying clustering, classification and regression to data sets, and more ...

TUITION FEE:
£2,445

EARN:
Certifications

SCHEDULE: Visit **LearningTree.co.uk/1253** for more dates.

July 4-8.......................London	Dec. 12-16............. New York*
Aug. 8-12.............Wash., DC*	Jan. 9-13, 2017 ....London
Oct. 3-7 ....London	Mar. 27-31, 2017 ..Wash., DC*
Nov. 14-18 ....Wash., DC*	Apr. 3-7, 2017.............London

*Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Hadoop Programming with Java for Big Data Solutions

Course 1251 • 4 Days

YOU WILL LEARN HOW TO:

- Implement Hadoop jobs to extract business value from large and varied data sets
- Write, customise and deploy Java MapReduce jobs to summarise data
- Develop Hive and Pig queries to simplify data analysis
- Test and debug jobs using MRUnit, and more ...

HANDS-ON EXPERIENCE:

- Developing efficient parallel algorithms
- Analysing unstructured files and developing Java MapReduce jobs
- Loading and retrieving data from HDFS and HBase
- Extending Hive and Pig with User Defined Functions (UDFs), and more ...

TUITION FEE:
£2,095

EARN:
Certifications

SCHEDULE: Visit **LearningTree.co.uk/1251** for more dates.

July 5-8.................Wash., DC*	Dec. 19-22............. New York*
Aug. 30-Sep. 2 ....London	Jan. 17-20, 2017 ....London

Hadoop Architecture & Administration for Big Data Solutions

Course 1252 • 4 Days

YOU WILL LEARN HOW TO:

- Architect a Hadoop solution to satisfy your business requirements
- Install and build a Hadoop cluster capable of processing large data
- Configure and tune the Hadoop environment to ensure high throughput and availability
- Allocate, distribute and manage resources, and more ...

HANDS-ON EXPERIENCE:

- Installing Hadoop to a cluster
- Reading and writing to the Hadoop Distributed File System (HDFS)
- Implementing High Availability, failover and recovery
- Setting up NameNode Federation, and more ...

TUITION FEE:
£2,095

EARN:
Certifications

SCHEDULE: Visit **LearningTree.co.uk/1252** for more dates.

Oct. 4-7 ....Wash., DC*	May 2-5, 2017 ....London

*Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Extracting Business Value from Big Data with Pig, Hive & Impala

Course 1254 • 4 Days

YOU WILL LEARN HOW TO:
- Manipulate complex data sets stored in Hadoop for competitive advantage without writing complex Java code
- Automate the transfer of data into Hadoop storage with Flume and Sqoop
- Filter data with Extract-Transform-Load (ETL) operations using Pig
- Query multiple data sets for analysis with Pig and Hive, and more ...

HANDS-ON EXPERIENCE:
- Loading data into HDFS using Flume and Sqoop
- Transforming data sets with Pig and Hive
- Simplifying queries by creating Hive views
- Splitting and joining data sets in Pig and Hive, and more ...

TUITION FEE: £2,095

EARN: Certifications

SCHEDULE: Visit **LearningTree.co.uk/1254** for more dates.

July 12-15.............. New York*	Jan. 31-Feb. 3, 2017..Wash., DC*
Sep. 6-9.....................London	May 30-June 2, 2017 ..Wash., DC*
Sep. 27-30............Wash., DC*	
Jan. 17-20, 2017 ....London	

Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Tableau: Presenting Analytic Visualisations

Course 1256 • 3 Days

YOU WILL LEARN HOW TO:
- Create interactive visualisations to deliver business insights
- Extract business intelligence by adding value to your data
- Integrate data from multiple heterogeneous sources
- Generate Tableau maps for geographical data, and more ...

HANDS-ON EXPERIENCE:
- Simplifying code using auto, range-for and uniform initialisation
- Replacing unnecessary inheritance with lambda expressions and the function template
- Writing efficient, thread-safe multi-processor applications
- Replacing manual memory management with smart pointers, and more ...

TUITION FEE: £1,695

SCHEDULE: Visit **LearningTree.co.uk/1256** for more dates.

July 27-29.............Wash., DC*	Nov. 16-18 .... New York*
Aug. 17-19..................London	Dec. 21-23..................London

Oct. 5-7 ....London	Mar. 29-31, 2017 ....London

Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Building Apache Cassandra Databases

Course 1260 • 3 Days

YOU WILL LEARN HOW TO:
- Architect and engineer Cassandra databases for competitive advantage
- Model data in Cassandra based on query patterns
- Access Cassandra databases using CQL and Java
- Create a balance between read/write speed and data consistency, and more ...

HANDS-ON EXPERIENCE:
- Querying data with the Cassandra Query Language, CQL
- Modelling and building Cassandra tables
- Partitioning and clustering with composite primary keys
- Achieving read and write consistency levels, and more ...

TUITION FEE: £1,695

SCHEDULE: Visit **LearningTree.co.uk/1260** for more dates.

June 29-July 1 ......Wash., DC*	Nov. 30-Dec. 2............London
Aug. 17-19..................London	Dec. 7-9................ New York*
Sep. 7-9................ New York*	Jan. 4-6, 2017 .....Wash., DC*

Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Building Enterprise Solutions with MongoDB

Course 1261 • 4 Days

YOU WILL LEARN HOW TO:
- Develop highly scalable and cost-efficient applications with MongoDB
- Build efficient MongoDB data models for enterprise-scale applications
- Enhance performance with indexing and sharding
- Manage consistency with write concern and read preference, and more ...

HANDS-ON EXPERIENCE:
- Configuring your MongoDB installation
- Developing Java and Python clients
- Designing data models and associated queries
- Building a highly scalable and available system, and more ...

TUITION FEE: £2,095

SCHEDULE: Visit **LearningTree.co.uk/1261** for more dates.

July 26-29.............Wash., DC*	Nov. 1-4 ....Wash., DC*
Aug. 23-26............Wash., DC*	Dec. 6-9................Wash., DC*

Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Apache Spark Programming with Scala for Big Data Solutions

Course 1262 • 4 Days

YOU WILL LEARN HOW TO:

- Develop applications with Spark
- Work with the libraries for SQL, Streaming and Machine Learning
- Map real-world problems to parallel algorithms
- Building business applications that integrate with Spark, and more ...

HANDS-ON EXPERIENCE:

- Embedding SQL queries within Spark applications
- Deriving insights from real-time data streams
- Classify and cluster data with Machine Learning
- Build a Spark-based RESTful web service, and more ...

TUITION FEE:
£2,095

SCHEDULE: Visit **LearningTree.co.uk/1262** for more dates.

June 28-July 1 .... New York*	Oct. 25-28 ....Wash., DC*
July 26-29.............Wash., DC*	Dec. 13-16.................London

Cloud Computing Technologies Introduction

Course 1200 • 3 Days

YOU WILL LEARN HOW TO:

- Build/deploy cloud applications for effective implementation
- Exploit SaaS to optimise cost and resources
- Provision public IaaS and private IaaS
- Create, deploy and secure applications/services with PaaS, and more ...

HANDS-ON EXPERIENCE:

- Deploying websites and data to Amazon IaaS
- Assessing PaaS tools for cloud applications
- Experiencing SaaS real-time collaboration tools
- Allocating resources on an OpenStack Private Cloud, and more ...

TUITION FEE:
£1,695

EARN:
Certifications, CompTIA CEUs

SCHEDULE: Visit **LearningTree.co.uk/1200** for more dates.

July 27-29.............Wash., DC*	Dec. 7-9................Wash., DC*
Aug. 24-26............. New York*	Jan. 18-20, 2017 ....London
Sep. 21-23.................London	Feb. 1-3, 2017 .... New York*
Nov. 2-4 ....Wash., DC*	Mar. 1-3, 2017 ......Wash., DC*

Essentials of Cloud Security Management

Course 1220 • 3 Days

YOU WILL LEARN HOW TO:

- Analyse and implement security for public and private clouds
- Establish data integrity and privacy in the cloud to manage risk
- Maintain platform security and protect data confidentiality
- Protect networks, operating systems and applications in various cloud deployments, and more ...

HANDS-ON EXPERIENCE:

- Assessing patching and configuration vulnerabilities of a cloud server
- Evaluating methods for data encryption
- Attaching encrypted long-term storage to a cloud server
- Verifying identity using a certificate chain, and more ...

TUITION FEE:
£1,695

EARN:
Certifications, CompTIA CEUs

SCHEDULE: Visit **LearningTree.co.uk/1220** for more dates.

Aug. 10-12............Wash., DC*	Feb. 1-3, 2017 ......Wash., DC*
Sep. 7-9................Wash., DC*	Mar. 8-10, 2017 ....Wash., DC*
Oct. 26-28 ....Wash., DC*	May 31-June 2, 2017 ..Wash., DC*

*Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Amazon Web Services (AWS)

Course 1205 • 4 Days

YOU WILL LEARN HOW TO:

- Develop robust, flexible and cost-effective cloud solutions with AWS
- Implement highly durable and reliable storage systems
- Customise Elastic Compute Cloud (Ec2) images
- Deploy and host web apps, and more ...

HANDS-ON EXPERIENCE:

- Installing command-line tools and administering AWS
- Provisioning Ec2 instances and creating EBS volumes
- Configuring dynamic load balancing and auto scaling
- Implementing robust S3 storage solutions, and more ...

TUITION FEE:
£2,095

EARN:
Certifications, CompTIA CEUs

SCHEDULE: Visit **LearningTree.co.uk/1205** for more dates.

July 19-22.............Wash., DC*	Nov. 8-11 ....Wash., DC*

Cyber Security

Cyber Security: Accessibility and Quality
Course 3674 • 4 Days

YOU WILL LEARN HOW TO:
- Protect assets by selecting and managing effective security controls
- Evaluate the thoroughness and quality of security controls
- Do more than just "Security Theatre"
- Provide a comprehensive strong defence and continuously monitor it, and more ...

HANDS-ON EXPERIENCE:
- Testing a real-world scenario workplace and server environment
- Performing assessment of current assets and management systems
- Categorising your systems and determining the appropriate security controls
- Implementing and assessing security controls, and more ...

TUITION FEE:
£2,095

EARN:
Certifications,
CompTIA CEUs

SCHEDULE: Visit LearningTree.co.uk/3674 for more dates.

July 19-22............. New York*	Nov. 1-4 ....Wash., DC*
Aug. 2-5...............Wash., DC*	Dec. 13-16............Wash., DC*
Sep. 13-16............Wash., DC*	Jan. 17-20, 2017 ... New York*

National Cybersecurity Workforce Framework Workshop
Course 3941 • 1 Day

YOU WILL LEARN HOW TO:
- Navigate/identify Framework tasks applicable to your organisation
- Improve cyber security performance better alignment of skills
- Categorise cyber security job roles & align them with the Framework
- Develop a cyber security workforce-needs plan, and more ...

WORKSHOP ACTIVITIES INCLUDE:
- Performing arithmetic computations and string operations
- Defining and calling top-level and class member functions
- Reading and writing formatted I/O
- Employing for loops and if/else decisions, and more ...

About This Workshop:

This workshop provides a practical demonstration of how to apply the NICE Framework to your organisation's specific cyber security workforce needs. In its highly interactive format, your expert instructor/advisor assists you in applying the National Cybersecurity Workforce Framework in your environment.

Bring this course On-Site to address your organisation's workforce needs. Please call 0800 282 353

Cyber Security Risk Assessment & Management
Course 2013 • 4 Days

YOU WILL LEARN HOW TO:
- Implement standards-based, proven methodologies for assessing and managing the risks to your organisation's information infrastructure
- Select and implement security controls that ensure compliance with applicable laws, regulations, policies, and directives, and more ...

WORKSHOP ACTIVITIES INCLUDE:
- Estimate the impact of failures of confidentiality, integrity, and availability
- Tailor the security control baseline to account for specialised system environments and operations
- Apply Operational Risk Management (ORM) in making authorisation decisions, and more ...

TUITION FEE:
£2,095

EARN:
Certifications,
CompTIA CEUs

SCHEDULE: Visit LearningTree.co.uk/2013 for more dates.

July 26-29............. New York*	Nov. 29-Dec. 2......Wash., DC*
Aug. 9-12.............Wash., DC*	Jan. 10-13, 2017 ....London

Defending the Perimeter from Cyber Attacks

Course 2010 • 4 Days

YOU WILL LEARN HOW TO:

- Fortify your network perimeter to provide an integrated defence
- Prevent or mitigate the effects of network attacks with a firewall
- Detect and respond to network attacks with Intrusion Detection and Prevention (IDP)
- Design, install and configure secure Virtual Private Networks, and more ...

HANDS-ON EXPERIENCE:

- Scanning and probing networks for open ports
- Setting up an ACL with a packet filtering router
- Configuring a firewall bastion host
- Deflecting attacks with an integrated IDS/IPS, and more ...

TUITION FEE:
£2,095

EARN:
Certifications,
CompTIA CEUs

SCHEDULE: Visit **LearningTree.co.uk/2010** for more dates.

Endpoint Security and Network Access Control

Course 2011 • 4 Days

YOU WILL LEARN HOW TO:

- Enforce security policies to protect sensitive data from internal and external threats
- Deploy Network Access Control to prevent malware infestation
- Implement Data Loss Prevention (DLP) through host-based IDS/IPS and endpoint encryption, and more ...

HANDS-ON EXPERIENCE:

- Assigning endpoints dynamically to VLANs
- Deploying agent software to manage endpoints
- Enforcing anti-malware policies
- Preventing exfiltration by regulating peripherals, and more ...

TUITION FEE:
£2,095

EARN:
Certifications,
CompTIA CEUs

Targeted Human Threats: Social Engineering Deceptions, Exploits and Defences

Course 2012 • 3 Days

YOU WILL LEARN HOW TO:

- Defend against social engineering deceptions that threaten organisational security
- Plan and evaluate security assessments for human weaknesses
- Promote vigilance and implement procedures to defeat deceptions, and more ...

HANDS-ON EXPERIENCE:

- Conducting a simulated dumpster dive to gather intelligence
- Identifying interview techniques that elicit private information
- Employing change blindness for impersonation, and more ...

TUITION FEE:
£1,695

EARN:
Certifications,
CompTIA CEUs

SCHEDULE: Visit **LearningTree.co.uk/2012** for more dates.

July 13-15.............Wash., DC*	Apr. 5-7, 2017.......Wash., DC*
Oct. 5-7 ....Wash., DC*	May 31-June 2, 2017 ..Wash., DC*

Advanced Persistent Threats: Targeted Attacks & Defences

Course 2054 • 4 Days

YOU WILL LEARN HOW TO:

- Proactively identify organisational weaknesses in order to mitigate the risk of Advanced Persistent Threats (APT) and targeted attacks
- Assess and defend against the risk of cyber espionage
- Identify attack vectors and methods used by sophisticated attackers, and more ...

HANDS-ON EXPERIENCE:

- Harvesting open source information about an organisation
- Probing an internal network for secondary victims
- Searching for and identifying key assets vulnerable to exfiltration
- Implementing data loss prevention countermeasures, and more ...

TUITION FEE:
£2,095

EARN:
Certifications,
CompTIA CEUs

SCHEDULE: Visit **LearningTree.co.uk/2054** for more dates.

Identity Management

Course 2056 • 4 Days

YOU WILL LEARN HOW TO:
- Implement identity/access management to control access to IT resources
- Build a Public Key Infrastructure (PKI) to manage enterprise trust
- Seamlessly implement external trusts among organisations with federated Identity Management (IM)
- Enhance authentication with digital certificates, smart cards and biometrics, and more ...

HANDS-ON EXPERIENCE:
- Establishing a Microsoft SCA under a Linux Root CA
- Cross-certifying enterprise PKIs with a Bridge CA
- Setting up Microsoft AD Federation 3.0
- Creating a federated logon to Azure and Amazon clouds, and more ...

TUITION FEE:
£2,095

EARN:
Certifications, CompTIA CEUs

Disaster Recovery Planning: Ensuring Business Continuity

Course 289 • 4 Days

YOU WILL LEARN HOW TO:
- Implement a Business Continuity Management System (BCMS)
- Set BCM in the organisational context
- Perform Business Impact Analysis (BIA) to identify business priorities
- Identify and respond to risk, and more ...

WORKSHOP ACTIVITIES INCLUDE:
- Identifying the impact on critical business functions
- Assessing risk: exposure, vulnerabilities and threats
- Developing appropriate countermeasures
- Organising teams during incident response, and more ...

TUITION FEE:
£2,095

EARN:
Certifications, CompTIA CEUs, PMI PDUs

SCHEDULE: Visit **LearningTree.co.uk/289** for more dates.

iPhone and iPad Application Development Introduction
Course 2761 • 4 Days

YOU WILL LEARN HOW TO:
- Apply development techniques to create iPhone and iPad applications
- Design and test UIs with Interface Builder and the Simulator
- Add functionality using Xcode and either Swift or Objective-C
- Combine navigation controllers and tab bars to provide a multifunctional user interface, and more …

HANDS-ON EXPERIENCE:
- Building applications with Xcode
- Writing Swift or Objective-C code to control the user interface
- Incorporating Cocoa Touch frameworks
- Combining multiple views with tab bars, and more …

TUITION FEE:
£2,095

EARN:
Certifications, CompTIA CEUs

Aug. 23-26..................London	Dec. 13-16............. New York*
Sep. 6-9................. New York*	Jan. 10-13, 2017 ....London
Oct. 11-14 ....Wash., DC*	Feb. 7-10, 2017 ..... New York*
Nov. 29-Dec. 2......Wash., DC*	Mar. 21-24, 2017 ..Wash., DC*

*Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Swift Programming Introduction
Course 2763 • 4 Days

YOU WILL LEARN HOW TO:
- Create, compile and execute Swift programs using Xcode
- Verify Swift code in Playgrounds
- Organise code with classes, structures and enumerations
- Develop Mac, iPhone and iPad applications that use functions, and more …

HANDS-ON EXPERIENCE:
- Incorporating built-in and user-defined data types into applications
- Declaring classes with custom initialisers
- Leveraging the capabilities of Swift with function types
- Developing reusable code with generics, and more …

TUITION FEE:
£2,095

EARN:
Certifications, CompTIA CEUs

Aug. 16-19............. New York*	Jan. 31-Feb. 3, 2017 ..London
Sep. 27-30..................London	Mar. 21-24, 2017 ..Wash., DC*

*Afternoon Start – 2pm - 9:30pm GMT

Attend In-CLASS or LIVE, ONLINE via AnyWare®

Mobile Application and Device Security
Course 2781 • 3 Days

YOU WILL LEARN HOW TO:
- Develop secure applications for Android and iOS
- Leverage OWASP best practices for secure mobile app development
- Identify and mitigate the most significant threats to mobile apps
- Protect application data at rest and in motion, and more …

HANDS-ON EXPERIENCE:
- Modelling and prioritising threats to mobile applications
- Correcting mobile risks using OWASP resources and techniques
- Encrypting critical application data on mobile devices
- Preventing injection flaws with enhanced input validation, and more …

TUITION FEE:
£1,695

EARN:
Certifications, CompTIA CEUs

Programming with .NET Introduction
Course 502 • 4 Days

YOU WILL LEARN HOW TO:
- Design and program web and Windows applications with .NET and Visual Studio (VS)
- Write object-oriented code using C# and Visual Basic (VB)
- Leverage VS for code generation, UI design, testing and debugging
- Create ASP.NET web applications and process Web Forms, and more ...

HANDS-ON EXPERIENCE:
- Writing applications using VB or C#
- Programming desktop and console applications
- Leveraging Visual Studio tools for rapid application development
- Creating ASP.NET web applications and processing Web Forms, and more ...

TUITION FEE:
£2,095

SCHEDULE: Visit **LearningTree.co.uk/502** for more dates.

Visual Basic Programming for .NET
Course 503 • 4 Days

YOU WILL LEARN HOW TO:
- Construct business applications that fully exploit VB and .NET
- Model business logic by coding classes with fields, properties, methods and events
- Apply inheritance, interfaces and polymorphism
- Design Windows and ASP.NET web user interfaces with Visual Basic, and more ...

HANDS-ON EXPERIENCE:
- Constructing Visual Studio solutions and Visual Basic projects
- Coding business logic classes using Visual Studio
- Employing object-oriented features of Visual Basic
- Creating well-designed ASP.NET web and Windows UIs, and more ...

TUITION FEE:
£2,095

C# Programming
Course 419 • 4 Days

YOU WILL LEARN HOW TO:
- Create, compile and run object-oriented C# programs
- Write and understand C# language constructs, syntax and semantics
- Produce programs using solid multilayer architectures
- Develop reusable .NET components via inheritance and interface realisation, and more ...

HANDS-ON EXPERIENCE:
- Writing and compiling C# programs using Visual Studio
- Building C# classes and inheritance hierarchies
- Writing desktop and web apps with Windows Forms and Web Forms
- Constructing and deploying custom .NET components, and more ...

TUITION FEE:
£2,095

EARN:
Certifications

SCHEDULE: Visit **LearningTree.co.uk/419** for more dates.

Programming C# Extended Features
Course 973 • 4 Days

YOU WILL LEARN HOW TO:
- Streamline data-centric applications with C# extended features and the Entity Framework (EF)
- Apply lambda expressions and extension methods
- Exploit LINQ keywords to filter and order data
- Generate dynamic enumerations in developer-written generic classes, and more ...

HANDS-ON EXPERIENCE:
- Writing lambda expressions and applying them in extension methods
- Implementing the data tier accessor with LINQ and EF
- Employing context objects and LINQ query keywords to access and update a database, and more ...

TUITION FEE:
£2,095

EARN:
Certifications

.NET Best Practices and Design Patterns
Course 511 • 4 Days

YOU WILL LEARN HOW TO:
- Solve complex programming problems using design patterns
- Deliver bug-free code using test-driven development in Visual Studio
- Create layered architectures for reusability and eliminating functional duplication
- Apply the S.O.L.I.D. principles for better class design, and more ...

HANDS-ON EXPERIENCE:
- Simplifying a complex system with the Façade pattern
- Creating a Business Domain Object Model
- Building automated test cases
- Automating UI testing with the MVC and MVVM patterns, and more ...

TUITION FEE:
£2,095

.NET 4.5 Programming for Existing .NET Developers
Course 2620 • 4 Days

YOU WILL LEARN HOW TO:
- Enhance .NET applications with .NET 4/4.5 and Visual Studio
- Leverage parallel and asynchronous computing features
- Automate access to data with the EF ORM and LINQ to Entities
- Optimise new ASP.NET and WCF features, including Web API, jQuery, JSON and REST, and more ...

HANDS-ON EXPERIENCE:
- Enhancing ASP.NET 2 applications using new features of .NET
- Maximising efficiency of multiprocessors with parallelism
- Programming LINQ to Object queries
- Mapping object and relational data using Entity Framework, and more ...

WCF, Web API and SignalR Services for .NET

Course 2601 • 4 Days

YOU WILL LEARN HOW TO:

- Create Windows Communication Foundation (WCF) services
- Develop RESTful Web services with ASP.NET Web API
- Harness real-time Web services with SignalR
- Connect MVC, WPF and HTML5 browser clients to .NET services, and more ...

HANDS-ON EXPERIENCE:

- Coding WCF service contracts and implementations
- Invoking WCF service operations from ASP.NET MVC controllers
- Connecting HTML5 web clients to ASP.NET Web API services
- Broadcasting data to multiple Web clients, and more ...

TUITION FEE:
£2,095

SCHEDULE: Visit **LearningTree.co.uk/2601** for more dates.

Crystal Reports

Course 126 • 4 Days

YOU WILL LEARN HOW TO:

- Develop reports to transform data into meaningful information
- Create advanced graphical and crosstab reports
- Add calculations and program logic with the Formula Workshop
- Connect to data sources and extract data to meet reporting needs, and more ...

HANDS-ON EXPERIENCE:

- Building reports from the ground up
- Connecting to data sources natively, via OLE DB and ODBC
- Designing a crosstab and drill-down report
- Developing a summary report with drill-down capabilities, and more ...

TUITION FEE:
£2,095

Take Your Career to the Next Level with Specialist & Expert Certifications in .NET & Visual Studio

Your achievement of Learning Tree Certification recognises your personal commitment to professional development and provides you with tangible credentials to accelerate your career.

.NET & Visual Studio
Specialist & Expert Certifications:

- ► **C# Development**
- ► **Visual Basic Development**
- ► **ASP.NET MVC Development with C#**
- ► **ASP.NET MVC Development with Visual Basic**
- ► **ASP.NET Web Forms Development with C#**
- ► **ASP.NET Web Forms Development with Visual Basic**

NOTE: All Certification Exams are FREE!

My ASP.NET MVC training was highly relevant and well presented. It had the perfect amount of content and level of detail; completely covering all topics I expected.

— R. Harris, *Vice President*
Mitsubishi UFJ Securities International

Introduction to Networking

Course 450 • 4 Days

YOU WILL LEARN HOW TO:

- Apply fundamental network concepts, terminology and solutions
- Implement networks using data links and physical media
- Deploy Local Area Networks (LANs) using Ethernet and Wi-Fi
- Manage reliable internetworks and intranets using TCP/IP design, and more ...

WORKSHOP ACTIVITIES INCLUDE:

- Designing campus network cabling
- Analysing the frame and packet flow for TCP/IP LANs
- Deploying wired and wireless hosts
- Scaling and selecting Ethernet LAN components, and more ...

Take Your Career to the Next Level with Specialist & Expert Certifications in Web Development

Your achievement of Learning Tree Certification recognises your personal commitment to professional development and provides you with tangible credentials to accelerate your career.

Web Development
Specialist & Expert Certifications:

- ► **Web Development**
- ► **HTML5 Development**
- ► **jQuery Development**
- ► **Responsive Web Design**

By earning my Web Development certification, I gained knowledge that I was able to apply right away — raising my profile and enabling me to take on more responsibility.

— Q. Thompson, *Contact Centre Designer* Orange Communications SA/AG
